

Putting people at the heart of digital transformation

DAS helps employees quickly acclimatize to new software, simplifying and personalizing the user experience. The solution actively engages users as they work, transforming training into dynamic learning and driving peer-to-peer support. Making the complex simple, **DAS** helps users learn in the moment and retain knowledge long-term. Real-time support is personalized to user roles, optimizing processes so employees can excel. And all of this is delivered in a single user experience.

Value Propositions

DO YOU WANT REAL VALUE?

ACCELERATE ADOPTION AND REDUCE FRICTION TO OPTIMIZE ROI

Turning digital doubters into converts, **DAS** keeps your people empowered, so they can get the most out of new software and fulfil their own potential.

PROTECT YOUR INVESTMENT

DAS is a true plug-and-play offering, integrating effortlessly with any Cloud or on-premise ERP. Secure and scalable, **DAS** lets you start small, rolling out later to the enterprise as a whole. You can tailor the solution to your business needs, only paying for the features you choose to deploy.

END-TO-END PROCESS VISUALIZATION

DAS puts the focus squarely on your business, helping your employees see the bigger picture too. Users can view end-to-end processes on a single SAP screen – seeing the impact of their decisions up- and downstream.

GATEWAY TO INNOVATION

Easily integrating SAP and non-SAP cloud extensions directly into the Fiori launchpad, users can leverage new technology such as analytics and machine learning. A no-code solution, **DAS** simplifies integration and accelerates adoption, all in a single SAP experience.

EMPOWER PEOPLE TO COLLABORATE AND ENGAGE

DAS enables collaboration through simple in-built tools. Sticky notes, online chat, video calls and screen sharing help users help each other, accelerating learning. **DAS** keeps your teams talking across global and functional divides, narrowing the skills gap across the enterprise as a whole.

Features

Guiders

Quickly add rich contextual help for users.

[▶ Take a look here](#)

Guided Learning

Assemble guiders into tutorials and courses with exams.

[▶ Take a look here](#)

Usage Analytics

See which content and features are being used, by whom, and how often.

[▶ Take a look here](#)

Fiori Magic

Improve usability of Fiori apps by hiding or highlighting fields and pre-populating data.
