

The challenge

- ⚠️ Customers can't visualize SAP value
- ⚠️ Business & IT misaligned on the vision
- ⚠️ Perceived complexity stalls decisions

EXPERIENCE SAP VALUE
IN UNDER 3 HOURS

Accelerate understanding. Align stakeholders. Close SAP deals faster.

ERPsimsim is a live SAP S/4HANA simulation where participants run a company — making real decisions across functions such as sales, finance, supply chain, and production while automating transactions and competing in a dynamic, accelerated timeframe marketplace.

HOW ERPSIM ACCELERATES SAP CONVERSATIONS

 De-mystify SAP Show integrated, end-to-end processes across every function—in one immersive experience.	 Align stakeholders Build a shared vision of SAP's value and move CFOs, COOs, and ops leads from 'not sure' to 'let's go'.	 Strengthen value selling Move beyond slides. Show measurable outcomes driven by real decisions in a live SAP environment.
 Accelerate deal progression Reduce perceived risk, build confidence, and help customers move forward — faster.	 Drive early user adoption Increase SAP use, reduce resistance, and improve implementation readiness before go-live.	 Create lasting impact Engage through competition, collaboration, and hands-on experiential learning.

What participants experience

- End-to-end integrated business processes
- Real-time analytics & insights
- SAP Fiori dashboards and My Home personalized UX
- AI chats and agents capabilities in action
- SAP working as one connected system

Common use cases

- Sales acceleration** — Differentiate your pitch. Showcase SAP value in action.
- Customer workshops**— Align stakeholders and validate transformation strategies.
- Internal enablement** — Train teams through experiential learning.

Stop selling SAP.
Start letting your clients run it first.
